

PartyRock.aws

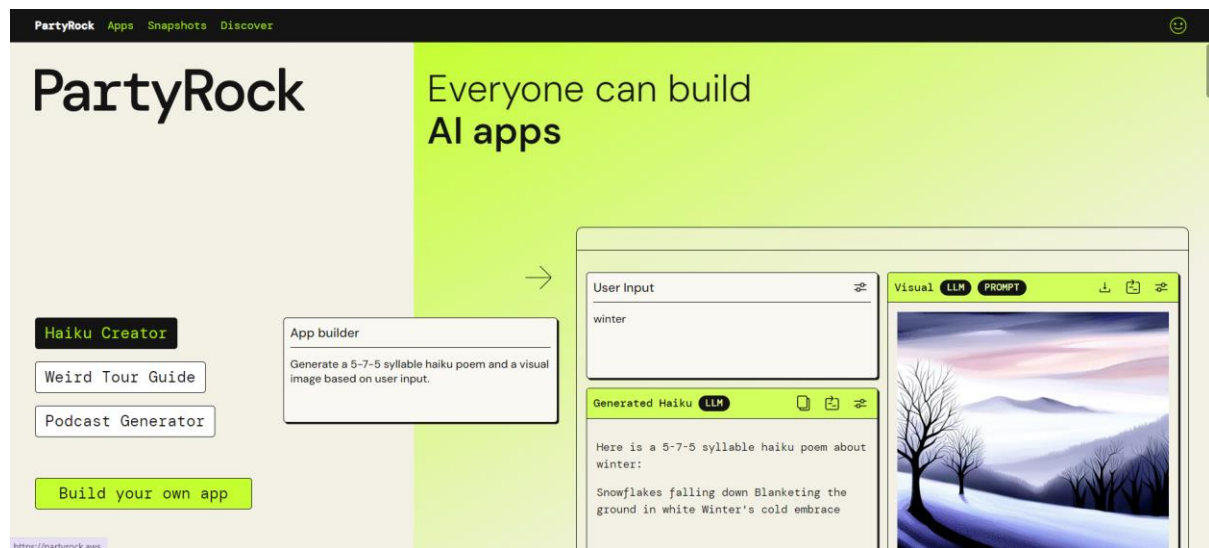

PartyRock is a space where you can build AI-generated apps in a playground powered by Amazon Bedrock. It's a fast and fun way to learn about generative AI.

PartyRock uses foundation models from Amazon Bedrock to turn your ideas into working PartyRock apps. You can create apps and run them until your Backstage page shows that you've used 100 percent of your PartyRock credit.

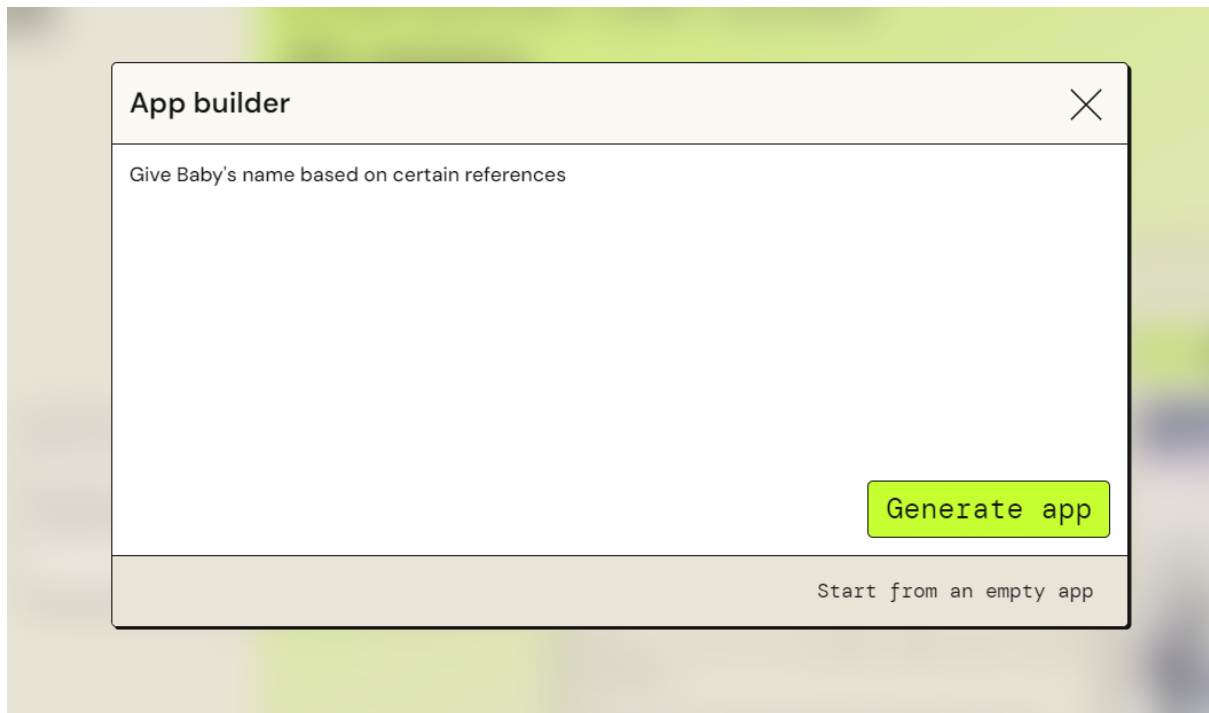

To get the most out of your PartyRock experience, you can do the following: Get started by creating a PartyRock app. This provides you with a starting place to learn in. Build your app by editing UI elements called widgets. You can change widget prompts so that they connect to each other and accomplish different things. Take the next steps and publish your PartyRock app so you can share it with others.

Provide Baby's Name [APP]

First we login to the AWS PartyRock

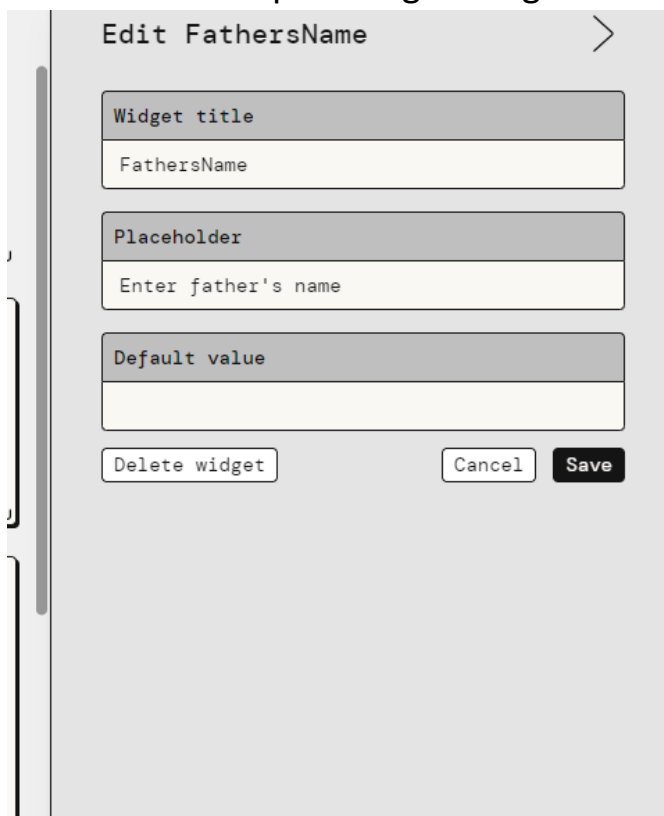

Now we go to Build your own app-

CLICK GENERATE APP

After create widgets based on given options for the output-

We used User Input Widgets to get name

We have 10 Widgets for getting the Baby name

PartyRock Apps Snapshots Discover

GiveBabyNames

Get name suggestions based on parent names

MothersName → Enter mother's name	FathersName → Enter father's name	GrandmotherName → Give name	GrandFather Name → Give name
Fathers Age → Give Age	Mothers Age → Give age	Nationality → Enter	sun sign →

BabyNameSuggestions

Generating as soon as MothersName, FathersName, GrandmothersName, GrandFather Name, Fathers Age, Mothers Age, Nationality and sun sign are filled.

And finally fill all the user input options –

MothersName Kumari	FathersName Srinivasa Rao	GrandmotherName Gurra	GrandFather Name Rathe Rao
Fathers Age 35	Mothers Age 33	Nationality Indian	sun sign Taurus

BabyNameSuggestions LLM

Here are some baby name suggestions that could work well based on the parents' names and details provided:

For Kumari and Srinivasa Rao:

- Girl: Aditi or Akshara
- Boy: Arjun or Vedant

Both Aditi and Akshara are Sanskrit names that mean infinite or imperishable, fitting well with their names. Arjun means undefeatable in battle and Vedant refers to the philosophical teachings of the Vedas, respectful of their cultural background.

Based on the details provided we get the BabyNameSuggestions
